Objective

Help companies engineer & design products in a creative manner.

Experience

SAAB Kockums — Consultant Sigma | Malmö, Sweden 01.2021 - Present
Working as a designer for the upcoming submarine A26.

Axis Communication — Master Thesis | Lund, Sweden 08.2020 - 01.2021
Developing a rugged intercom with UX design in focus. The intercoms will be placed at highways, public areas and entrance to enterprise business that require access control.

Formula student — Engine & chassis | Lund & Delft 08.2017 - 01.2019
Formula Student is a student is the worlds biggest engineering competition. When involved in the Lund team, I worked with the engine and its subsystems. During my exchange study, I joined the Delft team, and we are working with the ergonomics of the car.

Swedish Armed Forces — Navy | Karlskrona, Sweden 01.2013 - 08.2014
After completed basic military education, I served at HMS Södermanland as an Engine Technician. Degree in Maskinbefäl Klass 8.

Lodge Hundfjället — Scullion | Sälen, Sweden 11.2012 - 01.2013

Nolato — machine operator | Torekov, Sweden 08.2012 - 11.2012

Education

Lund University — Mechanical Engineering with industrial design |
Lund, Sweden 08.2015 - 01.2021

This education is there classical mechanical engineering education with a combination of technical design. It has given me a broader sense of product development.

Delft University — 3me, Mechanical, Maritime and Materials Engineering |
Delft, Holland 07.2018-02.2019

Malmö University — Product design | Malmö, Sweden 08.2014 - 06.2015

Product design provided me with an outlet for creative creations. I found a base in the graphic designs ethics that I enjoy.

Prototyping

Adobe XD / Figma

3D-Printing / Laser cutting

Milling / Lathing / Welding

Arduino

Cad

Creo

Fusion 360

Solidworks

Catia

Graphic

Illustrator

Photoshop

InDesign

Skills

Rapid prototyping

Matlab

Languages - Swe, Eng

Driving license - B, AM
